CONNECTSET
AIR + POWER

4IN1 Auxiliary Cable

Part Number	Length
MCP410A	10'
MCP412A	12'
MCP415A	15'
MCP420A	20'

Auxiliary Replacement Cable

Part Number	Length
MAP7A12	12'
MAP7A15	15'

4IN1 Single Pole

Part Number	Length
MCP410S	10'
MCP412S	12'
MCP415S	15'

Single Pole Replacement Cable

Part Number	Length
MAP7S10	10'
MAP7S12	12'
MAP7S15	15'

4IN1 Dual Pole

Part Number	Length
MCP410D	10'
MCP412D	12'
MCP415D	15'

Dual Pole Replacement Cable

Part Number	Length
MAP7D10	10'
MAP7D12	12'
MAP7D15	15'

All ConnectSets include these features:

Midland Action Grip

7-Way Cable and Plugs

D.O.T Air Lines

Heavy Duty Spiral Wrap

Stainless Hanger Clamp

CONNECTSET
AIR + POWER

Midland 4IN1 tractor-to-trailer connection set

Sturdy. Flexible. Resilient.

Stands up to the toughest conditions in the tractor-to-trailer connection environment

Midland Action Grip (MAG)

- MAG functionality helps prevent the number one failure point in tractor-to-trailer air connections – kinked air lines
- Flexible gladhand grip responds to extreme vehicle articulation by allowing lines to gradually bend versus absorbing severe hose stress at the connection point
- Constructed of a highly elastomeric compound that won't degrade in extreme environments, ensuring a longer service life
- Grip is permanently locked to a 1/2" NPT CA360 fixed brass fitting

ABS Duty 7-Way Cable (4/12 – 2/10 – 1/8)

- SAE J2394 performance tested assures superior conductivity
- Heavy-duty cable jacket with enhanced abrasion resistance protects against UV exposure and common chemical encounters

Premium 7-Way Plugs

- Double gusseted handles improve strength
- Optimized lock-tang design for a secure plug-to-receptacle connection
- Extended spring guards protect cable-to-plug connection point
- SAE J560 compliant

D.O.T. Air Lines

- Uniform, dual-braided hose design with interwoven spirals for high flexibility and extended durability
- Rugged, fully-bonded hose cover resists abrasion, UV exposure, diesel and common chemical encounters
- 1/2" NPT CA360 brass, tractor-side swivel fittings with extended spring guards
- 3/8" ID rubber air hoses are SAE J1402 & D.O.T. FMVSS No. 106 compliant

Heavy Duty Spiral Wrap

- Extends the life of your connection lines by protecting them from the harsh tractor-to-trailer connection environment
- Convex-cut ends and beveled construction eliminate sharp edges

Stainless Steel Hanger Clamp

- Corrosion-resistant stainless steel improves service life
- Easily adjustable to optimize connection line suspension between tractor and trailer
- Rubber edge protection takes line-damaging sharp edges out-of-play
