

EB+ Gen2 Premium AUX

Haldex

Technical Information

Part Numbers:

EB+ Gen2 Premium AUX 820 030 001

Cables:

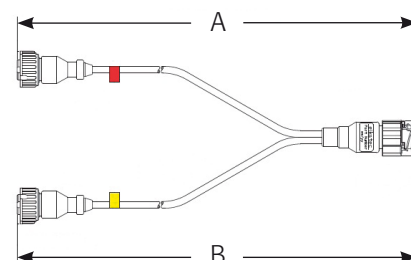

Auxiliary Cable

7m	814 012 201
18m	814 012 211
1m	814 012 221
2m	814 012 231
5m	814 012 241
3m	814 012 251
4m	814 012 261

DIN 72585 Splitter

Length A (Red)	Length B (Yellow)	
-------------------	----------------------	--

0.5m	0.5m	814 028 001
4m	2m	814 028 011

The electronic braking system for trailers, Haldex EB+ Gen2 Premium AUX, is now even more dynamic and flexible.

Benefits

Multiple auxiliary connections (software programmable) allow multiple devices to be fitted.

Two totally independent outputs on both AUX2 and AUX3 means even more flexibility to control more trailer auxiliary devices.

Super AUX function, using external signals (switches, lights etc) to trigger, enable or disable other auxiliary functions.

Optimum braking performance on split-friction surfaces.

Fast and easy to install.

Integrated stability control.

Functions and capabilities are upgradeable by software for longer operational life.

Specifications:

Integrated quick release valve
Integrated anti-compound valve
Service brake test points
Reservoir connections
24 Volts
Consumption 3.2 Amp
Flame retardant fully encapsulated ECU
Plastic enclosure
EMC/RFI approved
Delivery and suspension M16 ports
Reservoir M22 ports
1Amp per AUX output
