

## Improved spring brake technology from Haldex

The new generation of spring brakes from Haldex has made a proven technology even better.

product information

# BLUE SEAL

## Spring Brakes – Drum Brakes

### KEY BENEFITS

- Epoxy coated spring housing to resist salt and road corrosion and enhance durability.
- Double “O” ring sealed centre section protects against air leakage and prolongs service life.
- Robust design for long service life.
- Separate rolled seal to prevent accidental disassembly.
- Caging tool tethered to ensure it stays in place.
- 100% leak tested and date stamped for easy traceability.

**Haldex**

# BLUE SEAL

## Spring Brakes – Drum Brake

Improved spring brake technology from Haldex.

- **New electrical resistance heat-treated compression spring.**

Delivering unrivalled performance and a long life for reduced cost of ownership.

- **Separate rolled seal.**

Prevents accidental disassembly.

- **Galvanised wire return springs.**

Haldex-designed and engineered for a service life that's twice as long as the industry standard.

- **Zinc-plated push rod.**

Zinc plating for enhanced corrosion resistance.

- **Tethered dust plug.**

Prevents loss of plug.

- **Caging tool.**

High strength with acme threads.

- **Double "O" ring seal.**

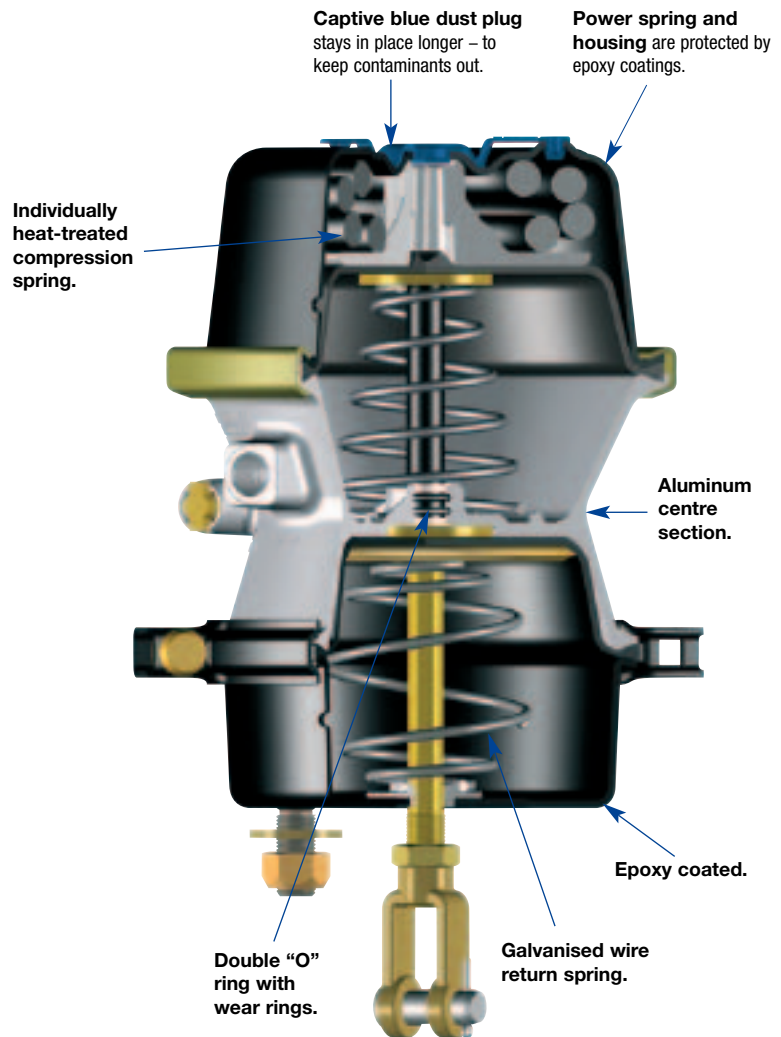

Double protection against air leakage between chambers.

- **Aluminium centre section and piston.**

Durable and light weight with excellent corrosion resistance.

- **Reinforced service housing.**

High quality, corrosion-resistant paint system.

3 variants to choose from

Drum Brakes Size	Stroke	Weight
20/30	76mm	8.7kg
24/30	76mm	8.7kg
30/30	76mm	9.7kg

### Quality Assured

Because it's from Haldex, every Blue Seal product is tested to the most rigorous standards. All testing done in accordance with SAE J1469 and DIN 74060-10.
