Midland / Fras-le Air Disc Brake Pads.

Teflon-coated caliper half-bearing for smooth brake application.

Long-life and anti-seizing grease provides corrosion resistance and oxidation protection.

Corrosion-resistant nickel-plated guide pins.

Staked and burnished long bushing for increased reliability.

100% pure silicone boots (no fillers) provides extended life.

Carriers are not reconditioned, they are replaced 100% with new product.
