## Haldex replaces KN18534 Governor.

Effective immediately, Haldex will discontinue our KN18534 Governor offering, replacing it with our MCP18530 Governor.

### MCP18530 features:

- High-temp O-rings endure elevated air system temperatures without sacrificing product life
- Operates in conjunction with the compressor unloading mechanism
- Automatically controls the air pressure in the air supply system between the predetermined maximum and minimum pressure
- Direct compressor or remote mount

For questions or additional documentation regarding this change, please contact your Haldex representative.
