

## Haldex Validates New 1/4" & 3/8" Push-To-Connect Fitting Supplier for Precision Response Height Control Valves

Haldex has been informed by our current PTC fitting supplier that they will no longer be offering the 1/4" & 3/8" PTC Fittings used in our Precision Response Height Control Valves.

Haldex has validated a new supplier that meets the Haldex standards and will begin using this new supplier as current PTC fitting inventories are depleted.

PTC fittings are designed for all D.O.T. truck and trailer applications and meet all D.O.T. FMVSS 571.106 and SAE J1131 Specifications, as well as, temperature range requirements of -40°F to +200°F (-40°C to +93°C).

Part number affected by this supplier change are shown below.

Part Number	Part Number	Part Number	Part Number
90555058	90555137	90555292	90555375
90555059	90555139	90555300	90555376
90555093	90555142	90555303	90555377
90555094	90555143	90555306	90555402
90555100	90555147	90555309	90555403
